

## **Ham Dingle EYFS Intent, Implementation and Impact Statement**

### **September 2021**

The Statutory framework for the Early Years Foundation Stage sets the standards for learning, development and care for children from birth to 5 years.

#### **Intent**

Our curriculum is designed to recognise children's prior learning, both from previous settings and their experiences at home. We work in partnership with parents, carers and other settings to provide the best possible start at Ham Dingle Primary, ensuring each individual reaches their full potential from their various starting points.

Our curriculum has been designed to enable children to succeed through cooperative and collaborative learning principles. As such, there is a strong emphasis on the Prime Areas of learning; Personal, Social and Emotional Development and Communication and Language.

Our enabling environments and warm, skilful adult interactions support the children as they begin to link learning to their play and exploration right from the start. We believe that high level engagement ensures high level attainment. We therefore provide an engaging curriculum that maximises opportunities for meaningful cross-curricular links and learning experiences, as well as promoting the unique child by offering extended periods of play and sustained thinking.

We follow children's interests and ideas to foster a lifelong love of learning both in and outside of school. By the end of the Reception year, our intent is to ensure that all children make at least good progress, from their starting points, and are equipped with the skills and knowledge to have a smooth transition into Year 1.

#### **Implementation**

Each half term, EYFS staff introduce a new theme to provide inspiration for learning, whilst providing the flexibility for children to follow their own interests and ideas. Children learn through a balance of child-initiated and adult-directed activities.

The timetable is carefully structured so that children have directed teaching during the day. The timetable changes throughout the year to take into consideration the changing needs of the children. These sessions are followed by small focused group or 1:1 work. This means the teacher can systematically check for understanding, identify and respond to misconceptions quickly and provide real-time verbal feedback which results in a strong impact on the acquisition of new learning.

Children are provided with plenty of time to engage in 'exploration' throughout the variety of experiences carefully planned to engage and challenge them in the provision. The curriculum is planned for the inside and outside classrooms and equal importance is given to learning in both areas.

### **English / Literacy**

Reading is at the heart of our curriculum and our aim is to encourage a love of reading right from the start. In EYFS we have 'Our Favourite 3' each week. The aim is to expose children to a range of books that not only develop a love of reading, but have been chosen specifically to develop their oracy, vocabulary and comprehension. These three books will be embedded in our provision through activities, story sessions and on display for children to access independently. Through this, children begin to internalise new vocabulary, language patterns and begin to retell stories.

There is cohesion and consistency within our approach to ensure we align with the whole school Literacy Curriculum CUSP that is followed from Years 1-6:

- The inclusion of high-quality texts which are age and stage appropriate
- Modelled reading and re-telling opportunities
- A focus on Tier 1, 2 and 3 Vocabulary
- Dedicated phonics sessions, employing tricky and high-frequency words

### **Phonics**

We follow the Ruth Miskin programme to ensure consistency across the school. In Reception, children are introduced to Set 1 sounds. They develop GPC and segmenting and blending skills to decode words. During the Summer term, children may move on to Set 3 if they are ready. Children are encouraged to read at home and are listened to regularly in school. They are given books that match their phonic knowledge in order for them to apply their learning with the aim of becoming successful, confident and fluent readers.

### **Mathematics**

In Reception, we follow the White Rose Maths Scheme of work which is divided into 3 weekly units. High quality learning environments and meaningful interactions with adults, support children in developing mathematical thinking and discussion. Pupils learn through games and tasks using concrete manipulatives and pictorial structures and representations which are then rehearsed applied and recorded within their own child-led exploration. Children in Reception have daily 'NCETM' lessons and child-initiated activities to develop fluency, revisit key concepts and address misconceptions.

### **Wider Curriculum**

Our wider curriculum is taught through the learning areas; 'Understanding of the World' and 'Expressive Arts and Design.' EYFS staff have a good understanding of how ELG's feed into the National Curriculum through our robust planning and CPD opportunities. In reverse, colleagues throughout the school are also aware of the key ELG's that link to each foundation subject and the progression of the subject.

Exciting, purposeful and contextual activities are planned to build on children's natural curiosity. For example, building a boat for their favourite toy enables them to think like a 'Scientist' and 'Engineer' as they explore a range of materials and test out their own ideas.

Children will be encouraged to employ subject specific language and terminology in foundation subjects, and such vocabulary will be modelled, both verbally and orally, by supporting practitioners.

Our inclusive approach means that all children learn together, but we have a range of additional intervention and support for children who may not be reaching their potential, or are showing a greater depth of understanding and need further challenge. This includes, for example, sessions for developing speech and language, social skills, fine motor skills, phonics, and mathematics.

Regular monitoring of teaching and learning by SLT and the EYFS leader ensure staff develop good subject knowledge. The EYFS leader ensures staff receive CPD specific to Early Years to develop their practice.

### **Impact**

Baseline: Prior to children starting, staff spend time speaking to the child's parents and previous settings to gain an understanding of the whole child and where they are at. During the first half term in Reception, all staff use ongoing assessments, observations and conversations with the child to develop a baseline assessment. This identifies each individual's starting points in all areas so we can plan experiences to ensure progress. The following baseline assessments are also carried out

### **The RBA (Statutory Reception Baseline Assessment)**

This assessment focuses on 'Language, Communication and Literacy,' and 'Mathematics.' The purpose of this is to show the progress children make from Reception until the end of KS2.

### **Wellcomm**

On entry to Reception, all children are assessed using Wellcomm. This screens children for speech and language ability, often identifying problems before they become more serious, and provides activities to address them. These activities are led by the EYFS teaching assistant.

### **Ongoing Observation**

All ongoing observations are used to inform weekly planning and identify children's next steps. This formative assessment does not involve prolonged periods of time away from the children and excessive paper work. Practitioners draw on their knowledge of the child and their own expert professional judgements through discussions with other practitioners, photographs and physical examples such as a child's drawing / making. Some observations are uploaded using Evidence Me and shared with the supporting parents and carers and examples kept in individual files. Parents are encouraged to upload their own observations to Evidence Me to share learning at home.

### **Assessment**

Phonic assessments are carried out using the Read Write Inc assessments and are then placed onto a phonics tracker every half term, to quickly identify pupils that are not making expected progress. Our aim is for children to 'keep up' rather than 'catch up' where possible.

Assessments are completed each half term and shared with parents, whereby the Class Teacher updates the progress children have made. In Summer Term 2, the EYFSP is completed where the class teacher judges whether the child has met each of the 17 ELG's. They will be assessed as either 'emerging' or 'expected.' Whilst there is no judgement to state if a child is exceeding beyond an ELG, teachers, have a duty to provide a narrative for both parents and the Year 1 teacher.

Impact is also evident through our successful transitions into Year 1. EYFS staff have a good understanding of how ELG's link to the National Curriculum, and through our robust planning and delivery across the spectrum of subjects – both core and foundation - children leave the EYFS stage with the skills, knowledge and confidence to continue their journey as scientists, historians, artists and geographers.
